ABOUT US – THE JOURNEY OF HV APPLIANCES

In 2015, in the heart of Chakdah, West Bengal, a bold idea was born – to bring clean air and pure water to every Indian kitchen. What started as a small local business with big dreams has today grown into HV Appliances, a name trusted by thousands of families across the nation.

We began by understanding one simple truth – every home deserves healthy living. With our Kitchen Chimneys and Water Purifiers, we offered not just appliances, but solutions to everyday problems. People didn't just buy our products – they believed in us.

With passion, persistence, and people-first thinking, HV Appliances quickly gained momentum. From a few customers in West Bengal to 100,000+ happy homes across India, our journey has been nothing short of extraordinary.

We didn't stop at products. We created opportunities for growth – launching zero-investment business models that empowered local entrepreneurs to grow with us. Today, HV Appliances stands as a symbol of trust, innovation, and success.

We are proud of our roots. And even prouder of how far we've come – from Chakdah to the corners of India, one happy home at a time.
